

Online Banking Browser Support Policy

Online Banking User Interface Supported Browser Policy

Liberty Bank will review and classify the current versions of each major browser to ensure a quality user experience. We will regularly announce any new updates to the supported browser policy as required.

Liberty Bank supports the desktop browsers listed in the table below and is committed to ensuring these browsers successfully meet functional and all minimum design requirements.

Browsers that are **not mentioned** in the table **are considered unsupported**. Such browsers may be used by end-users but are not certified by Liberty Bank for use. The end-user may experience features that do not function properly.

Beta versions of browsers are not recommended for use.

Online Banking - Desktop Version

Supported	Notes
Google Chrome 115 and newer	Considered to offer an optimal Online Banking experience.
MS Edge 115 and newer	
Mozilla Firefox 115 and newer	
Apple Safari 14 and newer	

Mobile Application Support

The following table lists Application Approved device types and OS versions. Please note, limited/minimal support may be available dependent on platform/OS with a smaller or declining market share.

Mode	OS	Devices
Apple	iOS 13+	iPhone 6s and above
Android	Android 10+	Various Devices

Online Banking Browser Support Policy

Important Notes

Subject	Notes
Transport Layer Security (TLS) and Encryption	Must support a minimum of TLS 1.1 and 128-bit encryption (preferably TLS 1.2 and 256-bit encryption).
JavaScript	Must be enabled for Online Banking to function properly. Certain functionality will be unavailable without JavaScript enabled.
Cookies	Must be set to allow 3rd party cookies for the Online Banking interface to properly function.
Screen Resolution	A minimum screen resolution of 1024 by 768 pixels is suggested to view the site correctly.
Pop-Up Windows	Must be allowed in the browser for full Online Banking functionality, including session time out notifications.
Bill Payment providers (Apiture partners)	Browser requirements for single sign-on bill payment pages may vary from the above list. These policies are posted separately on Digital Banking support sites.
3rd Party Vendors or SSOs (Single-Sign On)	Any institution-specific 3 rd party vendors (SSOs) may have additional browser requirements. Apiture does not test browser functionality requirements for these vendors. Institutions should notify their users of any specific requirements for 3 rd party products.
