POULSBO, WASH. – July 28, 2023 - Liberty Northwest Bancorp, Inc. (OTCQX: LBNW) (the "Company") and its wholly-owned subsidiary Liberty Bank today announced earnings of \$18 thousand for the second quarter ended June 30, 2023, compared to \$165 thousand reported in the second quarter ended June 30, 2022. In the first six months of 2023, net income was \$27 thousand, compared to \$204 thousand the same period in 2022.

Total assets increased to \$187.1 million as of June 30, 2023, compared to \$186.0 million at June 30, 2022. Net loans totaled \$138.6 million as of June 30, 2023, compared to \$139.8 million at March 31, 2023 and \$144.8 million a year ago. Loan demand has tapered off compared to a year ago and was impacted by loan payoffs.

Asset quality improved during the quarter, with no non-performing assets as of June 30, 2023. The allowance for credit losses totaled \$1.25 million as of June 30, 2023, and was 0.90% of total loans outstanding. The Company recorded a loan loss recovery of \$18 thousand during the quarter. The Company recorded a \$50 thousand reversal to its provision for credit losses in the second quarter of 2023, compared to a \$30 thousand provision in the first quarter of 2023 and a \$75 thousand provision in the second quarter of 2022 as a result of improved credit metrics and performance.

Total deposits increased to \$140.5 million at June 30, 2023 compared to \$139.1 million at March 31, 2023 and decreased compared to \$164.5 million a year earlier. Non-interest bearing demand accounts represented 30.9%, interest bearing demand represented 18.0%, money market and savings accounts comprised 26.6% and certificates of deposit made up 24.5% of the total deposit portfolio at June 30, 2023.

"Deposit growth and pricing remained an industrywide challenge during the second quarter, and we have not been immune to the effects of the Federal Reserve's tightening monetary policy. Consistent with the rest of the banking industry, we experienced net interest margin contraction during the

quarter due to pressure on funding costs," said Rick Darrow, Liberty Northwest Bancorp, Inc. President and Chief Executive Officer. "We are taking actions to position our balance sheet to mitigate net interest margin compression and anticipate benefitting from rising interest rates in the near term. In addition, we continue to look for opportunities to grow our client base and take advantage of recent market disruptions."

The Company's net interest margin was 2.51% for the second quarter of 2023, compared to 2.62% for the preceding quarter, and 3.28% for the second quarter of 2022. For the first six months of 2023, the net interest margin was 2.56%, compared to 3.13% for the first six months of 2022.

Total non-interest income was \$130 thousand for the second quarter of 2023, compared to \$36 thousand in the second quarter a year ago. The year-over-year 258% increase was primarily due to an increase in referral income. For the first six months of 2023, non-interest income increased to \$260 thousand, compared to \$105 thousand for the first six months of 2022, an increase of \$ 155 thousand or 147%.

Total noninterest expense was \$1.27 million for the second quarter of 2023, an increase of \$76 thousand, or 6.0%, from the second quarter a year ago. Compensation and benefits costs increased by \$37 thousand, or 5.0%, over the prior year quarter. During the fourth quarter of 2022, the Company opened its new headquarters in Poulsbo. The banking center is in a desirable location in Poulsbo and is large enough to accommodate future growth for the bank well into the next decade. Occupancy costs increased by 12.0% from prior quarter of last year. Year-to-date, total noninterest expense decreased \$20 thousand, or 1.0%, to \$2.5 million, over the same period in 2022.

Capital ratios continue to exceed regulatory requirements, with a total risk-based capital ratio at 15.48% substantially above well-capitalized regulatory requirements. The tangible book value per share was \$7.68 at quarter end, compared to \$7.45 a year earlier.

The Company reported the level of uninsured deposits at quarter end was approximately 29% at June 30, 2023, compared to 27% three months earlier, excluding the collateralized portion of public deposits.

"Our brand of community banking is being well received in the markets that we serve, and we will continue to work to create value for our shareholders and our customers," said Darrow. "Ultimately, we are proud to have created the ability to provide shareholders greater access to liquidity and increased market value transparency. With a strong capital position, a diversified balance sheet, ample liquidity and excellent credit quality, we believe we have a solid foundation upon which to continue to improve our financial performance."
